I will talk to Monica tomorrow am (we are meeting at 8 am) to see what level of review her agency would want and get an idea if this is possible. Also I would like to talk to you about the process in the event the State has significant comments given it has gone through Mathy. I am thinking once we have the Q&A's approved we can work more collaboratively with CDPHE on a general fact sheet with the Q&As informing the fact sheet. Feel free to give me a call. Johanna

Johanna, do you think there's any way for the state to turn this around tomorrow, assuming we get it back from OSWER?

Joan,

I was just wondering the same thing. I would suggest that I call him today and let him know the answers won't be coming this week. I can, again, assure him that we are working hard to get this approved and released.

Do you concur?

Thanks Suzanne. Johanna may have comments. My only comment is that it doesn't look like we're going to get these out this week, which is unfortunate. Cynthia, would appreciate your advice in how/whether to communicate with Anthony Edwards about this again.

The responses have to go back through review here. Wanted you to see what they look like now. I hope you are comfortable with how we've addressed the comments from Mathy.

Subject: RE: Follow up Q&As from Sept. 4 Silverton Meeting-Additional corrections 10.2.15

R8 and Melissa have tried to address Mathy's comments on the Silverton response. Regarding Q5, Mathy wanted us to add the average length of time it takes to fund a site. We do not have a number we can include on the average length of time, and instead added a sentence saying "Sites are generally funded when they are ready to begin construction."

We made a number of changes to Q11 after conferring with Ellyn Fine. The answer is clearer now that we fund states through cooperative agreements to allow them to meaningfully participate in the Superfund process.

Unfortunately, these Qs & As need to go back through OSRTI review before going back to OSWER. Both Melissa and I are out on Friday. After Dana/Schatzi/Jim/Don approve, and can someone send them to Nancy Cohen and Rachel Bassler so they can give them to Becky Brooks (who I assume will want to be sure Mathy is ok with the changes).

Importance: High

All-

Please see follow-up comments from Mathy on the responses to 9/4 Silverton meeting Qs. After edits by OSWER and R8, we are left with these two issues:

- n A5 - include the average length of time it takes to fund a project
- n A11 - also discuss more broadly how we fund the states for SF activities.

I believe A5 is getting at the data we pulled previously (and decided not to use) on the time it takes from listing to RA start, etc.? Do we want to revisit?

A11, I'm not sure what else we can add, please take a look.

I've attached the most recent version of the responses.

Thanks!

Subject: RE: Follow up Q&As from Sept. 4 Silverton Meeting-Additional corrections 10.2.15

Attached are Mathy's comments, which are summarized below:

- n Convey results that property values increase over time (Mathy spoke to Brigid, who sent out a revision.)
- n A5 - include the average length of time it takes to fund a project
- n Q6, answer to the last question (might want to make these a, b, and c for easier reference) - discuss public access to listing info; when is HRS info shared?
- n A8 - discuss how boundaries are established for other mining sites and provide example(s).
- n A11 - also discuss more broadly how we fund the states for SF activities.
- n A14 - Strike the first two sentences and delete "Therefore". The answer will read, "EPA does not anticipate any change in air quality associated with the GKM release."

Thanks for your patience. Becky << File: image2015-10-08-114828.pdf >>

Thanks Melissa. And thanks everyone who worked on this. I gave it a quick look and want to raise Q8 for further consideration. The sentence that was deleted would go a long way to alleviating concern that the Town of Silverton proper would necessarily be part of any listing. That is a huge concern for people there. I understand there may be broader policy considerations around that language, but would just ask for another look knowing that it is very important locally and with members of the Congressional delegation there.

Happy to discuss. Joan

Subject: RE: Follow up Q&As from Sept. 4 Silverton Meeting

Hi All-

Attached for OSWER review, please find OSRTI-approved responses to the follow up Qs&As from the Sept. 4th Silverton meeting. This document is a compilation of responses from R8, OSRTI and OSWER (Karen Sullivan).

The data OSRTI used in the response to Q9 is from CERCLIS (last updated FY2013). We believe the data for construction complete status is properly qualified in the last paragraph of this response, but we know R8 raised a question about the time frame, so we wanted to flag this response.

Please let me know if you have any questions, and thank you to everyone who worked on these responses.

Melissa

Subject: RE: Follow up Q&As from Sept. 4 Silverton Meeting

Based on the meeting we had with Mathy on Thursday, and a follow up discussion I had with Johanna Miller today, we've reworked the questions coming out of the September meeting Mathy had in Silverton (attached).

Johanna and I would appreciate everyone reviewing this to see if you think these questions capture the issues raised in the September meeting. Becky, if you could get feedback from Mathy, we'd appreciate it.

I've identified who is the lead for responding to each question. Melissa Dreyfus is our lead for coordinating the overall response. If folks could try to have responses by Wednesday, September 30, that would be great. Thanks.
